Video encoding

From external camera

Video from videoconference → **Video mixer**

Video signal

RealMedia encoder

Audio from mixer →

Stream of 64k and 128k → **RealMedia server of Sibelius Academy**

Computer for monitoring
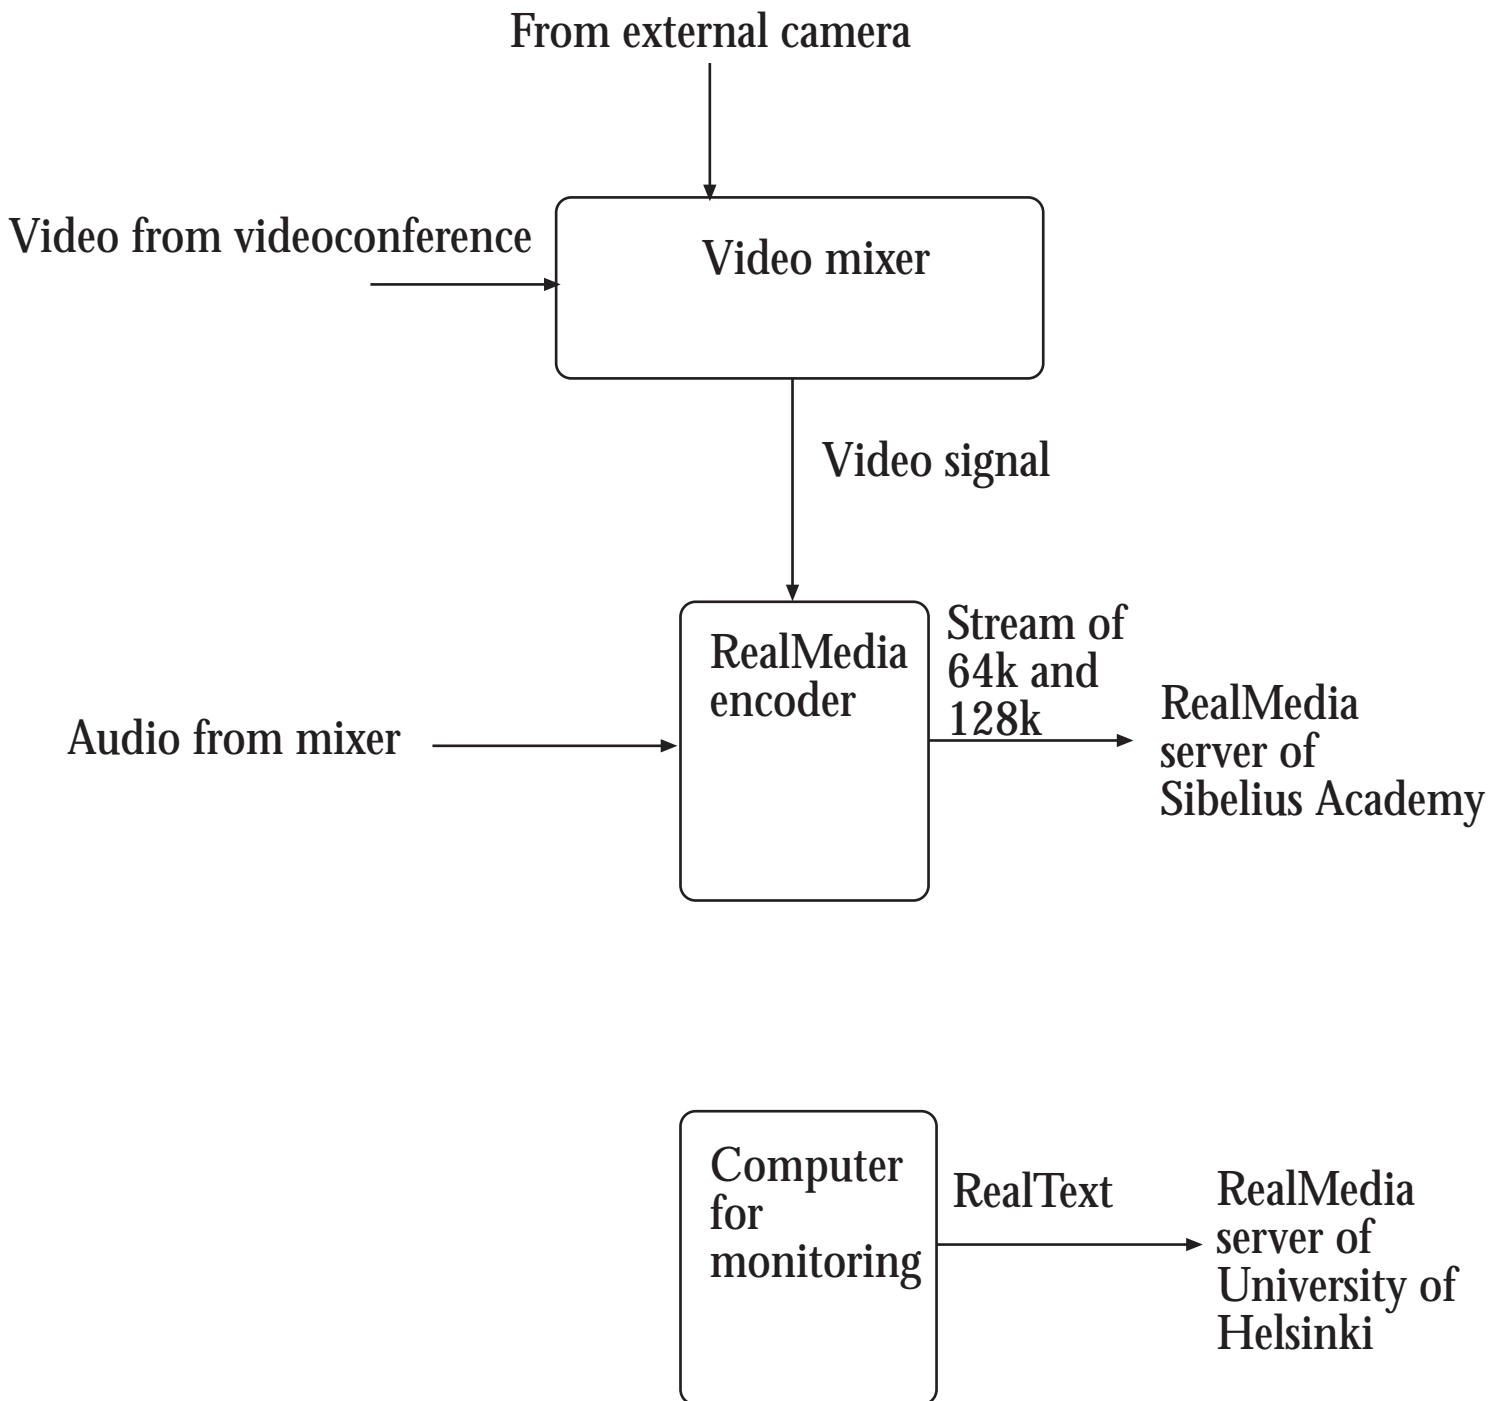

RealText → **RealMedia server of University of Helsinki**

NB: RealVideo and RealText are combined to the same screen for client view. Two servers in use because of the licence limitation at Sibelius Academy
